Foreword

CHINT Group is a world-renowned smart energy solution provider. We unwaveringly adhere to the culture of people-oriented, value-sharing and mission of making electric power safer, more green, more convenient and more efficient.

CHINT Group regards “customer-focus, innovation, modesty in learning, integrity, collaboration, responsibility” as its core values and “creating values for customers, seeking career development for employees and taking on responsibilities for the society” as its business philosophy to build the enterprise image of green energy-saving, sustainable innovation, reliability and comprehensiveness, and win-win cooperation.

CHINT Principle:

- promotes innovation and collaborative work;
- strives to create and maintain a healthy and safe environment toward its employees, Business Partners and everyone who interacts with CHINT Group;
- constantly acts with integrity, transparency, dignity and respect in the performance of the day-to-day activities;
- is always grateful for the trust and the investment of its shareholders and investors.

CHINT ICP:

In order to better protect our values and identity, it is a priority that everyone, individually or collectively, behave in harmony with the values set out in our Integrity and Compliance Programme.

CHINT Integrity and Compliance Programme is an integral part of our business and is critical to the existence and success of our business, our common welfare and the harmonious development of humankind. because the principles of CHINT Integrity and Compliance Programme derives from essential elements of our culture such as honesty, loyalty, integrity, sharing values and reciprocal assistance.

01 Introduction to the Code of Integrity, Compliance and Business Conduct

1.1. CHINT Integrity and Compliance Programme

CHINT Group's Integrity and Compliance Programme includes:

- The Code of Integrity, Compliance and Business Conduct (the "Code"), which sets forth the rules, the principles and the procedures of CHINT Group's compliance and integrity policy as well as ethical and respectful business conduct ;
- The Business Partners Code of Conduct (the "BP Code") sets out forth the rules and principles which guide our business decisions and behavior to ensure integrity and transparency in all aspects of CHINT Group's relationships with its Business Partners ;
- The Standard Operational Policies ("SOP"), which are adopted at the level of each entity of the Group in the application of the BP Code and the Code;
- Integrity Compliance Manual (hereinafter referred to as the "Manual") or similar document, any instructions, guidelines or similar instruments, which may be adopted by the management of the Group in compliance and pursuant to the Code, the BP Code and the SOP.

1.2. Scope of Application

The Code are applicable in conjunction with any and all applicable national and international laws wherever the business of CHINT Group is conducted. The Code is a mandatory requirement for doing business with CHINT Group. It applies to all of CHINT Group's Business Partners, their employees and their Business Partners.

CHINT Group reviews and updates regularly the Code. You will find the most recent version on : https://www.chint.com/guideline_info.html

It is critical that the Code be put to use on a daily basis and that CHINT Group's Business Partners uphold and convey its values within their organisations.

The Code outlines the most important aspects of maintaining ethical business relationships, but it is not exhaustive.

The Code is not meant to be a legal advice and therefore, you may also need to consult with your advisors or counsels.

1.3. Consequences of the breach of the Code

There are serious consequences for breaching the Code and any applicable laws, including the loss of future business dealings with CHINT Group, heavy indemnities, possibly the termination of the business relationship and impairment of employees' rights and interests, without any indemnity due to the Business Partner.

Together, we carry out tasks such as establishing compliance system, laying out compliance communication network, and fostering compliance culture.

12

Risk Assessment And Management

Risk assessment and management is the process of identifying, prioritizing, and assigning responsibilities for risks. Our risk assessment and management prevention model consists of a "triple line of defence", whereby responsibility is shared for managing existing or potential threats related to misconduct through risk management tools such as prevention, surveillance and the development of countermeasures.

✓ three-layer defence

Functional Unit-- First line of defence against risk.

In the brutal battle against all types of risk, business units are often at the forefront, facing the risks head-on and bearing the burden of identifying existing or potential risks.

Business Unit -- Always provide the strongest logistical support for our operational department.

While the business units face risks head-on, the functional units diligently provide them with ammunition, assuming risk management and oversight functions in their respective areas of expertise.

Internal Audit Department-- Holding firmly to the last line of defense against risks.

Responsible for ensuring the effective implementation of the management system, conducting audits of the risk management activities of the departments in accordance with the annual audit plan, and assessing and improving the effectiveness of risk management and control processes through a systematic approach.

✓ Risk management tools

Prevention

We prevent misconduct and illegal behavior through integrity and compliance training, employee integrity and compliance due diligence and assessment, record keeping and joint actions.

Surveillance

We monitor misconduct or breaches of the compliance management system through whistleblowing and investigations, and periodically review the effectiveness of CHINT's integrity and compliance programme to evaluate its

implementation, provide proactive and comprehensive oversight of compliance matters, and assess compliance risks.

Response

When misconduct is identified or a report is received, we will investigate, respond to and rectify the corresponding incident, We ensure that the investigation process is prompt, fair and confidential and that punishments are not discriminatory or unfair.

13

Business Partner Management

CHINT Group consistently requires our Business Partners to commit to upholding business ethics, fair sales and marketing practices, confidentiality, and intellectual property protection, as well as adhering to a zero-tolerance standard for any improper behavior, just as we do. Responsible business practices have been established as a core element of our business partner management process.

Therefore, our explicit goal is to work closely with our Business Partners to make sustainable development a fundamental component of our business relationships, which also includes our clear commitment to integrity in business.

How do we do it?

We have established a comprehensive compliance management system for our Business Partners and formulated the "BP Code" applicable to them.

We require our Business Partners to strictly abide by laws and regulations in the course of their operations and consciously comply with the provisions of the "BP Code".

we require Business Partners to accept due diligence and risk assessment, continuous supervision and regular training, and consciously sign the "Business Partner's Integrity and Compliance Undertakings".
